

Senior Apartments

NOW OPEN!

**“Comforts of Home” is more than
our name, it’s our promise.**

Building on our years of experience developing and operating assisted living homes, we understood that senior citizens want an affordable, safe environment that strikes the right balance between their needs and their independence.

So we found a beautiful, tree filled setting along the Chippewa River with room for a two-story, 21-unit apartment building and an outdoor patio and walking paths. We designed apartment homes that include a modern kitchenette, a private bath and shower, comfortable living areas and large windows for viewing the ever-changing Wisconsin seasons.

We put together an independent living rental package that includes heat, electricity, and other utilities as well as cable TV and we developed an ala carte menu of available cares and services that support continued independence.

The result is a dwelling designed for living life to its fullest **NOW OPEN** in Chippewa Falls!

1224 Pumphouse Road
Chippewa Falls, WI 54729
(along the river below
St. Joseph’s Hospital)
